Mr Simon Lee
Director
Resources Capital International Pty. Ltd.

Dear Simon

Re: Authority concerning Adjacent Allotments

I write in relation to the current EIS being undertaken for the proposed North Queensland Country Club Resort and Equestrian Centre Project. I wish to confirm an extension of authority to RCI to be the sole representative of Landmark Projects Pty Ltd over the adjacent allotments, as described below, so that these allotments can be incorporated into the broader strategic approach to the appropriate development of the Resort and Equestrian Centre.

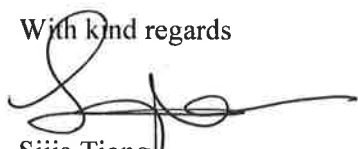

The ability to take a broader whole-of-district perspective enables a more cohesive approach to achieving the right balance in the development approach, the proper integration into the surrounding built and natural landscapes and ultimately deliver sustainable economic, social and ecological value to the region and its people. The preliminary findings of ecological surveys have also provided us with solid insights into constraints and opportunities that can contribute to a better outcome for all concerned.

Allotments:

- 3RP744362
- 2RP743791
- 7RP744364
- 5RP743792

The sole authority to represent Landmark Projects on these sites is in addition to the existing authority granted on 19 March 2019. The authority is for the duration of the EIS process only.

With kind regards

Sijia Tiong
Director
